ABOUT CRAM FOR THE EXAM:

Studying for the LEED Green Associate Exam is hard work. Make it easier on yourself with USGBC Maryland's LEED Exam study group workshop. Passing the LEED Green Associate exam requires in-depth knowledge of:

- Green Building
- LEED rating system categories
- Referenced standards
- definition of Green Building terms
- the certification process

This workshop will review all of the above items; however outside study will be required in addition to classroom work (approximately 40 hrs of study & memorization). This course will be taught by a LEED Accredited Professional.

Bel Air Hall is located at the rear of campus, parking would be in either A or B lots. www.harford.edu for a campus map
